

Good morning:

Wave Transit recently kicked-off a five year, Short Range Transit Plan (SRTP) for the region. This planning initiative is an important tool in identifying, quantifying and addressing the public transportation needs of our region and will guide our operations over the next five years. Wave Transit is seeking input from our customers, community partners and the community at large. Your input is needed!

Please see enclosed invitation to our public meeting scheduled for Thursday, September 21, 2017 from 5:00pm to 7:00pm at Forden Station, Wave Transit's main transfer facility located at 505 Cando St., 28405. Please drop-in, take a few minutes to learn about this planning effort, provide some feedback and enjoy some refreshments! If you are unable to attend the meeting but are interested in providing feedback, or if you want to learn more about this planning initiative, please click on the following link: <https://www.wavetransit.com/short-range-transit-plan/>. Please feel free to share this invitation with your networks. We look forward to seeing everyone on September 21<sup>st</sup>!

Regards,

**Megan Matheny**

Deputy Director

Cape Fear Public Transportation Authority-Wave Transit

Office: (910) 202-2057

Fax: (910) 343-8317
