

Kure Beach Stormwater Oversight Committee
Minutes
March 31, 2021

Attendees:

Becky Richardson, Jim Craig, Patsy O'Reilly, Jay Stewart, Connie Mearkle, Bill Bryan, Jimmy Mesimer, David Heglar

Discussion:

Discussed the two attachments from NC DEQ regarding the Town's SW permit and plan submission. Note that the 1/28/21 MEMO to Coastal Counties appears to make significant changes to what is expected from Kure Beach regarding SW permit monitoring. The Town is working with the State to understand the requirements and to modify our program to comply.

IN the short term – there are no changes to what we have been working on – building an auditable file on each of the permits within the town's jurisdiction.

As the requirements are more fully defined – they will be shared with this committee as well as the Town Council. The town attorney is reviewing the requirements to recommend ordinance changes to meet them, and the town is reviewing the best way to staff and manage the program changes that are required in the State's communication.

Meetings with Patsy O'Reilly and Jay Stewart scheduled with Jimmy Mesimer and David Heglar on 4/5 at 4pm at Town Hall.

Respectfully –

David
