

*KURE BEACH
CITIZENS BEACH PROTECTION COMMITTEE
MAY 1, 2007*

Due to the lack of a quorum the meeting was unable to proceed. A group discussion ensued and the following items were discussed with the four members present, Tom Barber, Priscilla Smith, Sandy Putnam and Tony Gonsalves. Also present was Chuck Keener.

The dunes were to be fertilized on 4/23 or 4/24. Tom will find out which day this was done. Complete on schedule.

Tom distributed the Beach Etiquette Magnet to local motels. Sandy distributed them to the beach locations and will give a supply to Atlantic Towers.

The Turtle Decals are ready but we are having a problem regarding displaying them. Chuck Keener will see if he can assist in this.

Dune Day planting of sea oats and cleaning the litter off the dunes is scheduled for Friday May 11 and Saturday May 12, 9:00AM to 11:00AM. All volunteers should meet at "N" Ave at 9:00 AM.

Tom is still working on crossover construction permits.

David Nash completed his survey and would like the list prioritized. With one (1) as the least important and five (5) as the most important the group came up with these:

- 1. Understanding the Dune System*
- 2. Dune fertilizer and management*
- 3. Beach Vitex*
- 4. Dune Planning for coastal areas*
- 5. Youth education of dune importance and care*

The next scheduled meeting will be on June 5th at 3:30 PM in the Town Hall.

Respectfully submitted,

Priscilla Smith
