DRAFT MISSION STATEMENT

The mission of the Kure Beach Storm Water & Environmental Committee is to assist Town Council and Staff with programs, direction and processes to protect, maintain and enhance the public health, safety, environment and general welfare of the community. The Committee work to meet legal requirements imposed by various governmental agencies

as well as Town of Kure Beach Ordinances, public education, behavioral modification, outreach projects and structural Storm water projects incorporation Storm water Best Management Practices (BMP's) where practical.

The committee also will handle misc. environmental, recycling, yard and animal waste, etc. as it relates to storm water runoff and water quality.
